Return within 90 days (exceptions by approval only)

Core Tag must arrive attached to returned core to avoid \$300 credit reduction

Rust or Corrosion, unless removable with emery cloth, will result in no core refund

Freight Charges for core returns are the responsibility of the customer

**\$300 CHARGE FOR ENGINE RETURNED
WITHOUT FLUID DRAINED**

Drain Core - Completely drain and recycle or properly-dispose of all fluids. If fluids are not drained, credit will be reduced by \$300. To receive full credit, you must drain all coolant from the engine block, oil cooler and water pump. Drain all oil from the engine block, remove oil filters, and seal all openings with plugs and covers from the replacement engine or with puncture resistant tape. Leaks or oil spills during transportation are very serious and are a health and safety risk. PPI customers are liable for any cleanup costs or damage resulting from in transit leaks or spills.
